

TRÚKETO™

A *Visi* innovation in using stored fat as a fuel source.

PRODUCT DESCRIPTION:

TrúKeto™ is a clinically proven, patent pending formula which includes a new ketogenic technology to help you reduce your appetite and convert stored body fat into energy. Its method of energy use is one of the most efficient and effective ways to reduce body weight and preserve lean muscle mass!

This formula leverages the latest biotechnology to deliver efficient and effective outcomes never before experienced in the keto world.

TrúKeto is a powder, conveniently packaged into single-serve stick packs for on-the-go use, that targets and burns body fat with every serving! Feel great again and experience this new kind of fat burning energy as you transform yourself into a leaner, stronger, more vibrant you!

PRODUCT BENEFITS:

- Fat burning/fat loss – converts body fat into energy
- Reduces appetite, especially for carbohydrates and sweets
- Improves Stamina
- Mental clarity and improved focus: neurons are 38% more efficient using fat for fuel vs sugar
- Healthy energy
- Doesn't load you up with unwanted salt/sodium
- All natural
- Patent pending ketogenic discovery

OTHER BENEFITS:

- Active lifestyle/athletic performance: non-stimulant energy and endurance, no lactic acid build-up, fast recovery
- Ketogenic Diet Support – ketogenic diet benefits without strictly following ketogenic eating guidelines.
- Nootropic – ketones promote mental clarity and focus
- Diabetic support – lowers blood sugar without becoming hypoglycemic

KEY INGREDIENTS:

- *B-hydroxybutyrate – butyrate (patent pending blend)*
- *Green Tea Extract*
- *Rubus Chamaemorus Extract (Arctic Cloudberry)*
- *Vaccinium Vitis-Idaea Oil (Lingonberry)*

POSITIONING:

TrúKeto is a break-through fat burning formulation. Whether it's for fat loss, athletic performance, mental focus or anti-aging, this new ketone technology delivers on all fronts and is truly unique compared to other ketone products.

Activated Ketones – other formulas are made up of only BHB (Beta Hydroxybutyrate) salts and work passively. TrúKeto's patent pending blend of a small amount of BHB coupled with BA (butyrate) – the BA actively signals the liver to begin ketogenesis – oxidize/release fat cells as fuel (FAT BURNING). This technology literally gives your body the power to use its own stored fat for fuel!

MCT Oil Free - BHB only formulas actually prevent the body from utilizing its own fat stores to produce ketones.

Immediate Absorption – TrúKeto – being an active component does not require salt and is immediately absorbed. BHB only formulas require a large amount of salt and are required to be broken down and burned off as sugar which slows ketogenesis.

Comfortable Ketones – other keto formulas are made up of only BHB salts and need to be broken down in the gastrointestinal tract for an extended amount of time resulting in bloating, gas, diarrhea and other discomforts. TrúKeto does NOT cause and gastrointestinal discomfort.

DIRECTIONS:

Mix 1 packet with 8-16oz of water. Shake well and enjoy! For optimal absorption take on an empty stomach 30 minutes before food.

THERAPEUTIC USE:

1 daily serving

OPTIMAL PERFORMANCE:

2 servings (morning/mid-afternoon)
